Professional Summary

Full-Stack Software Engineer specializing in modern web development using Next.js, React, Node.js, and Express.js. Experienced in building end-to-end applications with SQL and NoSQL databases, focusing on performance, security, and scalable system design. Currently expanding skills in Java, Spring Boot, and AWS.

Work Experience

Associate Software engineer (Skalafy(Pvt) Ltd) — June 2024 - Jan 2025

Socialic - Social Media Management Platform

- Developed an AI-powered content suggestion feature within a SaaS-based multi-platform social media management system, enabling automated post recommendations.
- Implemented end-to-end feature functionality using Next.js for the frontend and Express.js for backend APIs. .
- Improved content creation efficiency by reducing manual effort and enabling AI content generation across platforms.

Anytask - Marketplace Platform

- Built a service marketplace application using React Native, connecting clients with construction and home service providers.
- Implemented authentication flows, RESTful API integration, and contributed to backend development for core app features.Integrated payment processing using Genie and implemented push notifications, analytics, and crash reporting using Firebase (FCM, Analytics, Crashlytics).

Voclix - AI English Learning App

- Developed an AI-powered English learning platform using React Native, featuring speaking practice, writing assistance, and vocabulary training modules.
- Implemented end-to-end authentication using AWS Cognito, ensuring secure and scalable access control.
- Built offline-first functionality with SQLite and integrated push notifications, analytics, and performance monitoring for improved user engagement.

Trainee Software engineer (Ceydigital Solution(Pvt) Ltd) — Sep 2023 - April 2024

- Completed a 6-month internship, with 3 months focused on Web Development and 3 months on Game Development using Unity (C#), contributing to internal projects and prototypes.
- Developed Unity-based game prototypes while also building frontend components with React/Next.js and backend REST APIs using Node.js and Express.js during the web development phase.

Education

BSc (Hons) Computer Networks — **2025-Sep 2026**
University of Wolverhampton

Electronic & Telecommunication Engineering Technology(Merit) — **2020-2024**
Institute of Technology University of Moratuwa

Skills

- JavaScirpt
- TypeScript
- Java
- React.js
- Next.js
- Node.js
- Express.js
- React-native
- SQL
- MongoDB
- AWS
- Git & GitHub
- Docker
- CI/CD
